

# CLAPENZYME Tablet

For Healthy Digestion

Restores the Joy of Eating

## Benefits :

- Helps to reduce build-up of intestinal gas.
- Supports digestion and helps to relieve the constipation.
- Activated charcoal helps in digestive disorders like Gastroesophageal reflux.
- Activated charcoal absorbs toxins, gases & bacteria which accumulate in gut & intestines.
- Simethicone helps to relieve painful pressure caused by excess gas in stomach & intestines.
- Papain enhances the total digestive process & increases absorption of protein-based foods.
- Fungal diastase helps in digestion of carbohydrate & starch in diet & improves flatulence.

## Nutritional Information:

**Activated charcoal** is a fine black powder that is absorbent. It is used to soak up harmful or toxic substances that our body can't digest. It can only absorb toxins or chemicals that are still in our stomach & intestines. The charcoal and toxin are then removed from our system when we have a bowel movement.

Gastroesophageal reflux is a digestive disorder that occurs when stomach acid travels back up our esophagus. This can cause a burning sensation in our chest, known as heartburn, that tends to get worse after eating or when lying down and can be quite painful. Activated charcoal can help treat both conditions by soaking up the excess acid in our stomach.

With its ability to absorb toxins, charcoal can also be very effective in soaking up the gases & bacteria that accumulate in our gut & intestines. These can cause uncomfortable bloating & flatulence.

**Simethicone** is used to relieve painful pressure caused by excess gas in the stomach & intestines. It acts in the stomach and intestines to change the surface tension of gas bubbles, enabling their breakdown and the formation of larger bubbles. In this way, gas can be eliminated more easily by belching or passing flatus. It also allows gas bubbles in the stomach and intestines to come together more easily, which allows for easier passage of gas.

**Papain** is a powerful digestive enzyme, found & extracted from the papaya fruit, it is also referred to as papaya proteinase. The improper digestion of proteins can result in unwanted digestive side effects like gas, indigestion, bloating, constipation & upset stomach. The papaya enzyme papain plays a key role in digestive processes involving breaking down tough protein fibers. It is able to break down larger proteins into smaller proteins or peptides or even into the smallest amino acid subunit by cleaving the bonds in the interior of the protein chain or the end of the chain in a broad pH range. This gives it a marked ability to enhance the total digestive process & increase the nutrient absorption of protein-based foods.

**Fungal diastase** is a starch degrading enzyme used as an effective digestive aid & helps in digestion of carbohydrate & starch in diet into simple polysaccharides & sugar. It is used for control, prevention & improvement flatulence by breakdown of proteins & also it improves nutrition absorption & utilization.

Reduces Gas,  
Indigestion & Bloating

## Dose & Direction to Use:

As food supplement  
teen, adults and elder can take  
1 tablet per day  
one time or two times after  
a meal or as directed by  
healthcare professionals.  
Swallow with water.

## Ingredient Information :

Fungal Diastase, Papain, Simethicone, Activated Charcoal

3 x 10  
Tablets

Manufactured By:

# CLAPGOLD KID Syrup

Multivitamin & Multiminerals  
Formula With **DHA**

The Excellent Nutrition 5 in 1

Healthy  
Growth Need  
More

Makes Child  
Healthy, Intelligent  
& Active

## Benefits :

- CLAPGOLD KID syrup is beneficial to Brain, Eyes, Heart, Bones and Hair of the kids.
- Vitamin E, Vitamin B2 and Vitamin A are beneficial to eyes of the kids.
- Vitamin B3, B1, Glutamic acid, Iodine & DHA are beneficial for growth & development of brain.
- Lysine, Vitamin C, A, D3, K & Magnesium promote healthy & strong bones in the kids.
- Vitamin B2, B5 & Copper promote health of hair & also B5 & copper influence heart health.
- L- Carnitine helps to reduce fatigue.
- Zinc is important nutrient for rapidly growing bodies.
- Selenium helps to support a strong immune system & regulates thyroid function.
- Folic Acid plays a role in DNA synthesis and repair. It encourages cell and tissue growth.

## Nutritional Information:

DHA may play an important role in brain development and reducing cognitive decline. Lysine helps to produce collagen and absorb calcium, which children need for strong bones & teeth. Lysine helps in the production of carnitine, a nutrient responsible for converting fatty acids into energy. Vitamin C has antioxidant property, so it plays a crucial role in strengthening immunity. Vitamin B3 may help to boost brain functions, helps to convert food into energy by helping enzymes. It also plays a role in cell signaling and making and repairing DNA, in addition, it acting as an antioxidant. L- Carnitine helps to improve endurance by inhibiting the build-up of lactic acid, one of the causes of fatigue. Zinc plays a role in Immune function, development of cartilage and bone, minor wound healing, maintaining a healthy appetite, the structure of proteins & cell membranes which is important in maintenance of good health. Glutamic acid is metabolized in brain & it is neurotransmitter which is essential for healthy brain function. Vitamin E is key for immunity, healthy skin & eyes. Due to antioxidant property, it protects cells from damage. Magnesium supports the functions of hundreds of enzymes and promotes healthy bone development. Vitamin B5 is essential healthy heart, lower stress level and skin & hair care. Vitamin B1 is necessary for passing messages from brain (nervous system) to different organs of body. Vitamin B2 acts as an antioxidant. It helps to protect skin, hair, nails and eye health. Vitamin B6 works in the overall smooth operation of the various internal body functions. Folate (form of Folic Acid) & Vitamin B12 is important because it plays a role in DNA synthesis & repair. Vitamin A plays an important role in vision and growth of bones. Iodine is essential for the synthesis of the thyroid hormones which influence cognitive function of brain. Copper promotes healthy connective tissues (hair, skin, nails, tendons, ligaments and blood vessels). Vitamin K promotes the clotting of blood and prevents excessive bleeding. It's also used for healthy bones. Selenium has antioxidant property that helps body to prevent cellular damage from free radicals. Selenium also helps to support a strong immune system & regulates thyroid function. Vitamin D, helps kids to get enough calcium and phosphate that makes their bones stronger.

## Ingredient Information :

DHA, L-Lysine Hydrochloride, Vitamin C, Vitamin B3 (Niacinamide), L-Carnitine, Zinc (as Sulphate), Glutamic Acid, Vitamin E, Magnesium (as Sulphate), Vitamin B5, Vitamin B1, Vitamin B2, Vitamin B6, Folic Acid, Vitamin A (as Palmitate), Iodine (as Potassium Iodide), Copper (as Copper Sulphate), Vitamin K, Selenium (as Sodium Selenite), Vitamin D3, Vitamin B12

## Dose & Direction to Use:

As a food supplement,  
1 teaspoon daily or as directed by  
healthcare professionals.

Do not exceed  
recommended intake.  
Shake well before use.

100 ml

Manufactured By:

CLAPS Industries Pvt. Ltd.

-380015, Gujarat - INDIA.

# Claptil Tablet

Triple Actions

For Beautiful  
Skin,  
Nails &  
Hair

Look Good  
&  
Feel Good

For Clear Skin,  
Strengthen Nails &  
Hair Growth

## Benefits :

- CLAPTIL helps to support healthy skin, nails and hair.
- It reduces wrinkles & makes skin soft, strong & smooth.
- Maintains skin elasticity and restores & rejuvenates dehydrated skin.
- Makes skin firm and glowing.
- Helps to maintain thickness of hair & also improves growth of hair.
- Helps to prevent existing hair from falling out prematurely.
- It increases the size of hair follicles and subsequently stop hair thinning.
- It can even prevent premature graying of hair.
- It strengthens the nails.

## Nutritional Information:

**Vitamin D** reduces wrinkles & makes skin soft & smooth. It also plays a role in the creation of new hair follicles.  
**Vitamin E** restores and rejuvenates dehydrated skin. It boosts the production of collagen which maintains skin elasticity. It heals dry fingernails. It conditions hair from the root to the shaft and ensures healthier growth.  
**Vitamin C** is an antioxidant. It also delays the damaging effects of free radicals on the skin and body. Vitamin C helps to build collagen, which is important for hair growth. Collagen production will strengthen nails.  
**Vitamin B1** performs an important role in the regeneration of collagen, structural molecule that keeps skin supple & strong.  
**Vitamin B2** helps to maintain mucus secretion of skin to prevent acne breakouts & dry skin. It can even help to clear up pesky spots & revitalize skin by promoting healthy cell turnover. It maintains healthy hair, skin and nails.  
**Vitamin B3** can help to keep aging skin firm & glowing. It improves acne by increasing moisture balance of skin. Because of its circulation-boosting properties, it boosts not only the thickness of hair strands but nail strength and thickness too.  
**Folic acid** facilitates unhindered tissue growth. It is essential when concerned with skin, nail, and hair growth.  
**Vitamin B12** is integral to cell reproduction, so it is needed for healthy skin, hair and nails.  
**Biotin** is known to improve structure of keratin, important protein present in hair. It is present in the skin & nails as well.  
**Pantothenic acid** can strengthen hair follicles. It promotes growth of keratinocytes, which maintain healthy skin.  
**Magnesium** deficiency can cause poor nail growth. It helps to prevent calcium buildup on scalp.  
**Iron** deficiency, when it develops into anemia, can cause hair loss. The nails require oxygen to remain healthy. Increased consumption of iron can boost oxygen supply to skin tissues returning a youthful glow to your skin.  
**Zinc** is required for growth and division of cells. Such cells that produce skin, hair and fingernails.  
**Copper** plays a key role in synthesis of skin proteins. Copper peptides are known to increase size of hair follicles.  
**Manganese** protects against free radicals which can cause damage to skin, making it age quicker than it should.  
**Selenium** can utilize foods which contain protein & boost growth of hair. It is also required by skin for healing burn injuries.  
**GTF chromium** helps to control the sugar spikes that can damage the vessels that keep skin looking young and vital.  
**Iodine** strengthens weak & brittle nails. Iodine ensures proper hair growth & prevents hair breakage.  
**Cystine** deficiency can cause slow down the growth of both skin & hair.  
**Natural Mixed Carotenoids** help to promote hair growth. Antioxidant property of it helps to prevent premature skin aging.  
**Grape seed extract** promotes skin health, which contributes to hair growth. It improved microcirculation in capillaries.

## Ingredient Information :

Vitamin D, Vitamin E, Vitamin C, Vitamin B1, Vitamin B2, Vitamin B3, Vitamin B6, Folic Acid, Vitamin B12, Biotin, Pantothenic Acid, Magnesium, Iron, Zinc, Copper, Manganese, Selenium, Chromium GTF, Iodine, Cystine, Natural Mixed Carotenoids, Grape seed extract

## Dose & Direction to Use:

As food supplement, teens, adults & elders:

Take one tablet two times a day, after consultation with their health professional.

Take it with meal or as directed by health care professional.

For easier swallowing, take with water before and during ingestion.

2 x 15  
Tablets

Manufactured By:

CLAPS Industries Pvt. Ltd.  
B-1202, Infinity Tower, 60 Feet Road,  
Prahladnagar, Tal.: Vejalpur, Dist.: Ahmedabad  
-380015, Gujarat - INDIA.

# EYECLAPS

## CAPSULES

Helps to support Eye Health

Eagles have  
great vision  
You should too!

### Benefits :

- Helps to promote eye health and antioxidant defense.
- It may help to reduce eye fatigue.
- Helps to reduce eye pain, heaviness, discomfort and foreign body sensation.
- Helps to protect against night blindness.
- It supports night vision and visual acuity.
- It may reduce risk of AMD which causes blurred vision or vision loss in aged people.
- It also reduce risk of Glucoma and Cataract which cause blindness and decrease the vision.

### Nutritional Information

**Eyclaps** contains antioxidants, vitamins and minerals which are very beneficial in support the eye health.

**Bilberry extract** is rich in antioxidant compounds known as anthocyanins which reduces the inflammation & improve the blood flow. Bilberry also improves tear flow in people with dry eyes. It will help to reduce the eye fatigue. Also helps to improve the conditions due to dry eyes like discomfort, inflammation and visual disturbance.

**Vitamin C** is a powerful antioxidant. It may reduce the risk of forming a cataract and vision loss from macular degeneration.

**Vitamin E** may help to reduce the worsening of age-related macular degeneration (AMD) among people who show early signs of the eye disease. Vitamin E, along with lutein and zeaxanthin, may decrease the risk of cataracts.

**Lutein** has become known as the "eye vitamin". The antioxidant, anti-inflammatory & blue light-absorptive properties of lutein provide its many protective roles in ocular diseases like age-related macular degeneration (AMD) and cataracts.

**Zeaxanthin** maintains retinal health and may be an important strategy to prevent macular degeneration. It accumulates in macula where it absorbs harmful blue wavelength light & it accumulates in retinal pigment epithelium & vulnerable portions of the photoreceptors where its anti-oxidant capacity can prevent oxidative damage, a problem that increases with aging.

**Lutein and Zeaxanthin**, along with other natural antioxidants, like vitamin C and vitamin E guard the body from damaging effects of free radicals, which are unstable molecules that can destroy cells and play a role in many diseases.

**Zinc** helps our body to absorb vitamin A and also its deficiency may result in abnormal dark adaptation or night blindness.

**Copper** is used by many enzymes that help to ensure the nervous system works properly. Its long term deficiency cause vision loss.

**Ingredient Information :** Bilberry extract, Vitamin C, Vitamin E, Lutein, Zinc, Copper, Zeaxanthin.

Remove Dryness,  
Reduce Discomfortness  
and Bring Freshness

### Dose & Direction to Use:

As a food supplement, Adults, Elders & Children over 12 years of age, take 1 capsule per day with their main meal. Adults & Elders can increase the dosage up to two capsules daily after taking advice with healthcare professional.

Do not exceed recommended daily intake unless advised by healthcare professional.

30  
Capsules

Manufactured By:

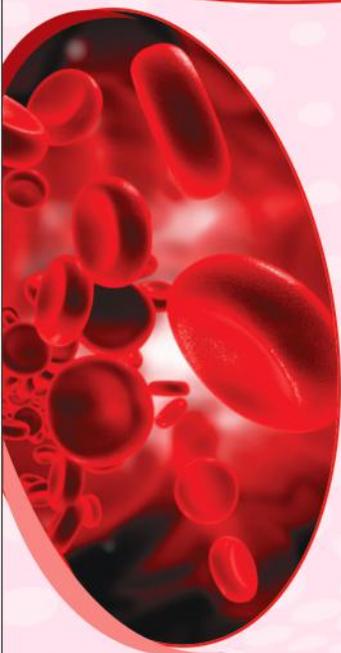

CLAPS Industries Pvt. Ltd.

-380015, Gujarat, INDIA.

# Feroclap Capsule

For Formation of Hemoglobin & Red Blood Cells

For Rich & Sustained Rise in Hemoglobin

## Benefits :

- Ferroclap contains nutrients for blood formation to maintain energy release and vitality.
- It is suitable during pregnancy and for women during the monthly cycle.
- Athletes and slimmers may also benefit through Ferroclap.
- Ferroclap contains nutrients which help to reduce fatigue and tiredness.

## Nutritional Information:

**Iron** helps in production of hemoglobin. Also it prevents anemia, low birth weight & premature delivery and helps to strengthen mother muscular system. It can improve quality of life for women who experience heavy bleeding each month. Athletes may need more red blood cells to carry oxygen so they can keep exercising. Slimmers also need red blood cells to carry oxygen so they can keep exercising and lose their weight.

**Zinc** is especially important during pregnancy because it can help baby's DNA production, cell growth & immune system. Zinc has antioxidant & anti-inflammatory actions in uterus. Improvement in micro-vessel circulation by zinc may help to prevent cramping & pain during menstrual cycle. Zinc has been linked to improve immune function & as an antioxidant & anti-inflammatory, all of which can benefit hard-training athletes. This is an important mineral in appetite control & a deficiency can cause a loss of taste & smell, creating a need for stronger tasting foods which tend to be sweeter, saltier and more fattening!

**Copper** helps baby to develop everything from nervous system to heart. Copper is a mineral that helps body make blood cells & keeps nerve cells & immune system healthy. It helps to form collagen, reducing free radical damage. Copper helps body to absorb iron & is needed to make energy. Copper may contain weight loss properties.

**Folic acid** helps to protect unborn baby from developing neural tube defects. It may help to prevent other birth defects. Folic acid is good as it works with vitamin B12 to form healthy red blood cells. It may boost heart function & improves athletic performance. It will ensure that protein is metabolized properly, which will help body maintain a stable insulin level. Keeping a consistent insulin, body will immediately burn fat. Burning fat increases weight loss.

**Vitamin B12** plays a central role in development of nervous system & brain and for general physical development. An unborn baby in the womb already requires enough vitamin B12 to ensure an optimal development. Women lose blood in each menstrual cycle and Vitamin B-12 plays an important role in the formation of red blood cells, so B12 is especially important during that time. Athletes may need more red blood cells to carry oxygen so they can keep exercising. Slimmers also need red blood cells to carry oxygen so they can keep exercising and lose their weight.

**Vitamin B6** is vital to baby's developing brain and nervous system. It also helps baby metabolize protein and carbohydrates during pregnancy. It also helps to restore estrogen levels that may be imbalanced due to menstrual cycle. B6 can also help to produce amino acids & therefore can provide more energy to women during their time of the month. Vitamin B6 involved in over 100 metabolic reactions, including production of energy and hemoglobin. It's an essential nutrient for raising the body's metabolism - aiding the fat burning process on cellular levels.

Maintains Energy release & Reduces Fatigue & Tiredness

## Ingredient Information :

Iron (as Fumarate), Zinc, Copper, Folic acid (as Folic Acid), Vitamin B12, Vitamin B6

## Dose & Direction to Use:

As a food supplement, teen, adult & elder persons take one capsule per day with their main meal or as directed by healthcare professionals. Swallow with water. Do not exceed recommended intake. Only to be taken on full stomach. Not suitable children under 12 years. This product contains Iron, which if taken in excess, may be harmful to very young children.

Manufactured By:

CLAPS Industries Pvt. Ltd.  
B-1202, Infinity Tower, 60 Feet Road,  
Prahladnagar, Tal.: Vejalpur, Dist.: Ahmedabad  
-380015, Gujarat - INDIA.

2 x 15 Capsules

# LIVCLAP Tablet

## For Healthy Liver Function

**Protects  
Liver  
& Promotes  
Digestion**

**Helps in Fatty Liver,  
Weak Liver, Hepatitis,  
Liver Cirrhosis, Loss of  
Appetite**

### Benefits :

- Livclap helps to reduce damage to the liver caused by free radicals.
- It reduces liver fat and improves metabolism.
- Helps in transporting triglycerides from liver & save from harmful effects.
- It is beneficial for inflamed liver or fatty liver patients.
- Helps to improve liver function.
- Provides energy to cells.
- Helps to maintain body's energy supply by maintaining healthy liver.

### Nutritional Information:

Silymarin reduces damage to liver caused by free radicals, which are produced when liver metabolizes toxic substances. L-Carnitine Tartrate reduces liver fat & improves metabolism who have high concentration of fat within their liver. Choline Bitartrate helps to prevent 'non-alcoholic fatty liver disease' and also transports triglycerides called VLDLs. Inositol combines with choline & works as 'lipotropic'. A compound that emulsifies fat & keeps it in liquid suspension form to be returned to liver. If cholesterol remains emulsified, chances of forming plaques or gallstones, is reduced. N-Acetyl Cystein has ability to restore intracellular levels of glutathione which is very powerful antioxidant & detoxifier. L-Ornithine is essential component of the urea cycle, the ammonia-detoxifying system in the liver. Artichoke Extract works well with milk thistle to improve liver function. As it is a powerful cholagogue, an agent that promotes the flow of bile. It also decreases the oxidation of liver cells. L-Lysine helps to support the health of liver. L-Glutathione concentration drops in liver when it is exposed to excess chemicals, pollutants or toxins. Chemicals like alcohol creates oxidative stress in liver where glutathione gets used in combating reactive oxygen species. Coenzyme Q10 helps to provide energy to cells. It has antioxidant properties also. Vitamin D is required in liver diseases because any kinds of liver diseases cause damage to liver which results in decrease the levels of vitamin D in the body. Vitamin E is an antioxidant which reduces oxidative stress in non-alcoholic fatty liver disease. Vitamin C is an antioxidant which has a potential role in patients with liver disease. Vitamin B1 reduces blood glucose levels in patients with liver cirrhosis. Vitamin B2 helps to break down proteins, fats & carbohydrates. It plays a vital role in maintaining body's energy supply. Vitamin B3 needed for healthy liver. Folic acid, vitamin B12 and B6 help to support the healthy liver function. Pantothenic acid makes up coenzyme A (CoA). The liver has high concentrations of CoA. High concentration of CoA in the liver, helps the body to get rid of the toxic substances. Iron is another essential nutrient that helps to carry oxygen around the body. The iron in liver is heme iron, the kind most easily absorbed by the body. Zinc deficiency is observed in many types of liver disease, including alcoholic liver disease (ALD) and viral liver disease. Copper, Manganese and Selenium help to support the liver function. Natural Mixed Carotenoids may play important roles in defending against oxidative stress by efficiently quenching the production of singlet oxygen and free radicals and inhibiting the progression of liver diseases.

### Ingredient Information :

Silymarin 1:1 Extract (Milk Thistle), L-Carnitine Tartrate, Choline Bitartrate, Inositol, N-Acetyl Cystein, L-Ornithine, Artichoke Extract, L-Lysine, L-glutathione, Co-Enzyme Q10, Vitamin D (as D3 800 IU), Vitamin E, Vitamin C, Thiamin (Vitamin B1), Riboflavin (Vitamin B2), Niacin (Vitamin B3), Vitamin B6, Folic Acid, Vitamin B12, Pantothenic Acid, Iron, Zinc, Manganese, Copper, Selenium, Natural Mixed Carotenoids

### Dose & Direction to Use:

As food supplement, teens, adults & elder take one or two tablets per day with their meal or as recommended by healthcare professionals.

Swallow with water.

Do not exceed recommended intake.

Livclap should only be taken on a full stomach.

Manufactured By:

CLAPS industries Pvt. Ltd.  
B-1202, Infinity Tower, 60 Feet Road,  
Prahladnagar, Tal.: Vejalpur, Dist.: Ahmedabad  
-380015, Gujarat - INDIA.

**3 x 10  
Tablets**

# MULTICLAP

Multivitamin & Multimineral  
Chewable Tablets

## Bring Back The Charm

**For Healthy  
& Active Life**

### Benefits :

- Vitamin A helps to proper development & function of eyes, skin & immune system.
- Vitamin B1 improves memory, anti aging property & digestion.
- Vitamin B2 helps to promote RBC productions. It helps to regulate thyroid activity.
- Vitamin B6 helps to improve mood & reduces symptoms of depression.
- Vitamin B12 is a nutrient that helps to keep the body's nerve and blood cells healthy.
- Vitamin D3 helps to keep healthy bone & teeth. It helps to support immune system.
- Vitamin E helps to promote wound healing property & nail health. It moisturizes skin.
- Folic acid helps to make DNA & for synthesis of red blood cells.
- Vitamin B5 helps to improve stamina & memory. It is responsible for better skin property.
- Sodium Ascorbate helps to boost immunity and helps to promote collagen renewal.
- Iron helps in respiratory function of lungs. It helps to improve muscle strength & immunity of body.
- Zinc helps to reduce diarrhoea. It is essential for cell growth, enzymatic reactions, DNA synthesis.

### Nutritional Information:

**Vitamin A** is also known as retinol because it produces pigments in retina of eye. It helps to prevent free radical damage in the body, by fighting oxidants.

**Vitamin B1** helps to maintain myelin sheath which supports nerve cell. It improves brain function. It maintains normal heart rhythms by providing energy to heart. It acts as strong antioxidant.

**Vitamin B2** is responsible for metabolism of fat, carbohydrate & protein. It converted carbohydrate into sugar. It is important for body growth and red blood cell productions.

**Vitamin B6** is responsible for red blood cell production. It form antibody. It maintains normal brain function.

**Vitamin B12** is a nutrient that helps to keep body's nerve & blood cells healthy and helps to make DNA, genetic material in all cells. It also helps to prevent megaloblastic anemia that makes people tired and weak.

**Vitamin D3** helps body to absorb calcium. Vitamin D3 with calcium is used to treat or prevent bone loss (osteoporosis). It helps in kidney disease to keep calcium levels normal and allow normal bone growth.

**Vitamin E** acts as antioxidant. It plays an important role in the production of hormone-like substances called prostaglandins, which are responsible for regulating a variety of body processes.

**Vitamin B3** increases level of good cholesterol like HDL & decrease level of bad cholesterol like VLDL and LDL. It helps in metabolism of proteins and fats. It keeps the skin, hair, and nervous system healthy.

**Folic acid** helps to body produce new cells & helps to prevent changes to DNA that may lead to cancer. It helps to prevent birth defects. Folate acts as cofactor for enzymes involved in DNA & RNA biosynthesis.

**Vitamin B5** is a growth factor & it is essential for metabolism of carbohydrates, proteins & fatty acids. This vitamin is also involved in synthesis of cholesterol, lipids, neurotransmitters, steroid hormones & hemoglobin.

**Vitamin C** is responsible for collagen & carnitin, neurotransmitter synthesis. Sodium Ascorbate has general immune boosting properties.

**Iron** is a constituent of hemoglobin, the protein that carries oxygen from the lungs and delivers it to tissues. Women who are pregnant and those who have heavy menstrual cycles have greater requirements for iron.

**Zinc** improves the absorption of water and electrolytes in intestine. It improves the function of the immune system. It is responsible for protein synthesis, cell growth and differentiation.

### Ingredient Information :

Vitamin A, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin B12, Vitamin D3, Vitamin E, Nicotinamide, Folic Acid, Vitamin B5 (Calcium Pantothenate), Vitamin C (Sodium Ascorbate), Iron, Zinc

### Dose & Direction to Use:

As food supplement, teens, adults and elder persons chew one tablet daily with their main meal or as directed by healthcare professionals. Do not exceed recommended intake. Only to be taken on a full stomach.

Manufactured By:

CLAPS Industries Pvt. Ltd.  
B-1202, Infinity Tower, 60 Feet Road,  
Prahladnagar, Tal.: Vejalpur, Dist.: Ahmedabad  
-380015, Gujarat - INDIA.

# Pregnaclap Tablet

Best Nutrition For Conception,  
through out Pregnancy & Breast feeding

Plus  
Omega 3  
Soft gel

Fill the Beautiful  
Phase of Women's  
Life with Joy &  
Happiness

Makes You  
Strong Internally

## Benefits :

- Provides multivitamin & multimineral which are beneficial throughout pregnancy & breast-feeding.
- It contains vitamins & minerals which can increase chances of conceiving.
- It contains prenatal vitamins that help baby to get nutrients which are essential for development.
- It contains vitamin B complex which can support mother & her growing baby throughout pregnancy.
- It contains EPA & DHA which are beneficial for visual and cognitive development of the baby.

## Nutritional Information:

**Vitamin D** is a vital vitamin as it is beneficial to improve fertility rates. Vitamin D deficiency during pregnancy increases risk of anemia, gestational diabetes, pre-eclampsia, bacterial vaginosis, and unplanned caesarean birth. Low Vitamin D levels can negatively affect an unborn child's health in a number of ways like lower birth weight and lowered cognitive function. Vitamin D plays a crucial role in thyroid health as it is important for healthy conception, pregnancy and postpartum period.

**Vitamin E** is called a fertility factor, as it has profound influence on early development: helps the newly fertilized egg to attach, influences the nerve development and even protects the developing babies from damage.

**Vitamin K2** is involved in many processes that are critical for a healthy pregnancy and baby, such as blood coagulation, bone metabolism and other calcium dependent events.

**Vitamin C** requires daily to mother and baby because it's necessary for the body to make collagen, a structural protein that's a component of cartilage, tendons, bones and skin. Water soluble vitamin supplements (e.g., B vitamins, vitamin C) taken by the mother usually increase breast milk levels.

**Vitamin B1** (Thiamine) supports baby's healthy brain development.

**Vitamin B2** (Riboflavin) keeps eyes healthy and skin glowing.

**Vitamin B3** (Niacin) eases morning sickness, keeps nausea at bay and improves digestion.

**Vitamin B5** (Pantothenic Acid) reduces leg cramps and helps produce essential pregnancy hormones.

**Vitamin B6** (Pyridoxine) aids the development of baby's nervous system and brain.

**Vitamin B7** deficiency is caused by pregnancy. It helps to reduce risk of birth defects.

**Vitamin B12** (Cobalamin) maintains and supports the development of mother and baby's nervous system.

**Iron** helps in production of hemoglobin. It prevents anemia, premature delivery & strengthen muscular system.

**Magnesium** may reduce the risk of complications like preeclampsia, fetal growth restriction and preterm birth.

**Zinc** is important for conception. It can help the baby's DNA production, cell growth, and immune system.

**Iodine** is essential for development of baby's brain & nervous system. It also regulates baby's metabolism. A lack of iodine during pregnancy has been linked with an increased risk of miscarriage and preterm delivery.

**Copper** helps baby to develop everything from nervous system to the heart. It also helps in fertility.

**Selenium** acts as an antioxidant that protects eggs from free radical damage. This is really important for a happy, healthy pregnancy that lasts to term. It may help to prevent miscarriage.

**Carotenoids** can impact a woman ability to get pregnancy.

**EPA and DHA** in diet of pregnant women have a positive effect on visual & cognitive development of baby.

## Ingredient Information :

**Pregnaclap Tablet:** Vitamin D, Vitamin E, Vitamin K, Vitamin C, Vitamin B1, Vitamin B2, Vitamin B3, Vitamin B6, Folic acid, Vitamin B12, Biotin, Pantothenic Acid, Iron, Magnesium, Zinc, Iodine, Copper, Selenium, Natural Mixed Carotenoids.

**Omega 3 Soft gel :** Omega 3 Fish Oil Providing: DHA (Docosahexaenoic acid), EPA (Eicosapentaenoic acid).

## Dose & Direction to Use:

As a food supplement,  
take one tablet (Green blister) per day,  
one capsule (Pink blister) per day or as directed by  
healthcare professionals. Swallow each with  
water and take with a main meal.  
Do not exceed recommended intake.  
To be taken only with full stomach.

Manufactured By:

CLAPS Industries Pvt. Ltd.  
B-1202, Infinity Tower, 60 Feet Road,  
Prahladnagar, Tal.: Vejalpur, Dist.: Ahmedabad  
-380015, Gujarat - INDIA.

# PROSAC Zn Capsule

Blend of **Prebiotic & Multi-Strain Probiotics** with Zinc

**Gives Freedom From GI Problems**

**For Healthy Gut, Improve Digestion & GI Flora**

## Benefits :

- Helps to increase the relative number of "good bacteria" in the gut.
- Helps in treatment of diarrhoea and for prevention of antibiotic associated diarrhoea.
- Helps to control symptoms of lactose intolerance.
- Helps to treat the constipation and give healthy flora in the intestine.
- Improves the digestion, reduces abdominal pain and flatulence from indigestion
- Zinc is essential for growth and for the metabolism of proteins, fats & carbohydrates.
- Zinc is required for many enzyme and body functions.
- Helps to enhance the body's natural antibody immune response.

## Nutritional Information:

**Fructo Oligo Saccharide (FOS)** is a carbohydrate. Undigested FOS in our food "feed" the bacteria in our gut. This makes it a prebiotic. **Lactobacillus Acidophilus** is beneficial to human health because it produces vitamin K as well as lactase, the enzyme that breaks down lactose. *L. acidophilus* can help to prevent and reduce the severity of diarrhoea that arises from eating spoiled food. It may also help with infectious diarrhoea caused by various viruses & bacteria like *E. coli* and the astrovirus.

**Lactobacillus Rhamnosus** can reduce the frequency and duration of diarrhoea. *Lactobacillus rhamnosus* prevents or treats acute diarrhoea especially rotaviral diarrhoea in children. *Lactobacillus rhamnosus* and *S. boulardii*, may help prevent diarrhoea associated with taking antibiotics.

**Clostridium Butyricum** probiotics give beneficial effects on the restoration of the intestinal microbiota and the recovery of the tissue architecture of the colon which is important in the treatment of Antibiotic associated diarrhoea.

**Bifidobacterium Bifidum** helps to improve digestion and enhances the immune phagocytic activity of the human body. It enhances the body's natural antibody immune response. It is effective in the treatment of diarrhoea, including infectious diarrhoea and diarrhoea associated with antibiotic use. The restoration of bacterial symbiosis within the gastrointestinal tract as a result of probiotic supplementation results in a decrease in stool frequency, fecal weight and abdominal cramps.

**Bifidobacterium Longum** acts as probiotic. *Bifidobacterium longum* also has been shown to treat constipation, reduce inflammation associated with inflammatory bowel conditions.

**Saccharomyces Boulardii** is used to help colonize the gastrointestinal tract with healthy flora. The healthy bacteria that *Saccharomyces boulardii* help to prevent the growth and proliferation of harmful microorganisms such as pathogenic yeast, bacteria and parasites in our body. This also helps to prevent and treat diarrhoea.

**Streptococcus Thermophilus** bacteria fight lactic acid bacterium that can impede proper digestion of our food. *Streptococcus thermophilus* soothes the stomach, which helps to reduce upset stomach and lactose intolerance. The beneficial effects in the digestive tract include improved lactose digestion and reduce abdominal pain, diarrhoea and flatulence from indigestion.

Zinc is an essential micronutrient required for many enzyme and body functions. It is essential for growth & physical development and for the metabolism of proteins, fats and carbohydrates. Zinc, specifically, aids in digestion by attaching to over 300 enzymes; including ones in your stomach that help break down food. Zinc also supports in alleviating diarrhoea.

## Ingredient Information :

Fructo Oligo Saccharide, *Lactobacillus Acidophilus*, *Lactobacillus Rhamnosus*, *Saccharomyces Boulardii*, *Bifidobacterium Bifidum*, *Bifidobacterium Longum*, *Streptococcus Thermophilus*, *Clostridium Butyricum*, Zinc

## Dose & Direction to Use:

For daily maintenance (3.625 billion active microflora) :

As a Dietary Supplement, take 1 capsule per day, preferably in the morning with food or as directed by healthcare professional.

For critical maintenance (7.25 billion active microflora) :

As a dietary supplement, take 2 capsules per day, preferably in the morning with food or as directed by healthcare professional.

**3 x 10 Capsules**

# CLAPCAL Tablet

**Calcium  
1250 mg**

**High Potency Calcium For  
Men & Women**

**Healthy Bones  
Leads To  
Healthy Life**

## Benefits :

- Calcium is essential for mother during pregnancy & lactation period.
- Calcium may help to prevent osteoporosis.
- Calcium helps to build strong bones & teeth.
- Vitamin D<sub>3</sub> is essential nutrient for calcium absorption.
- Vitamin D<sub>3</sub> helps to support bone repair.
- Vitamin D<sub>3</sub> helps to reduce risk of fall & fractures.
- Zinc supplementation may improve pregnancy and infant outcome.
- Zinc and Magnesium assist the body with healthy bone formation & teeth health.
- Magnesium during pregnancy helps to prevent the uterus from contracting prematurely.

## Nutritional Information:

**Calcium** maintains necessary level of bone mass. The body is constantly using calcium for heart, blood, muscles & nerves. It is also lost through bodily processes such as waste & the shedding of hair, fingernails, sweat & skin. If a human diet doesn't include enough calcium, body will take calcium away from bones, which weakens them & makes them more likely to fracture. Calcium, as part of mineral, deposits into the organic matrix of the skeleton, is critical for its structure & is necessary for tissue rigidity, strength & elasticity. This function allows for normal movement & exercise. Calcium can only reach its full bone-building potential if human body has enough vitamin D. Calcium & vitamin D work together to protect human bones. Calcium helps to build & maintain bones, while vitamin D helps human body effectively absorb calcium. So even if human is taking enough calcium, it could be going to waste if he is deficient in vitamin D.

**Vitamin D<sub>3</sub>** is known as cholecalciferol, is the biologically active form of vitamin D found in humans. Vitamin D<sub>3</sub> deficiency causes osteopenia, precipitates & exacerbates osteoporosis, causes a painful bone disease known as osteomalacia and exacerbates muscle weakness, which increases the risk of falls & fractures. Vitamin D<sub>3</sub> is required to maintain proper levels of calcium & phosphorus, which help to build baby's bones & teeth.

**Zinc** is an essential trace element to structure & function of metabolism. Zinc deficiency results in a retardation of bone growth, development & maintenance of bone health. Zinc has a stimulatory effect on bone formation & mineralization. Zinc helps to speed up the healing of fractured bones & ensure that immune system protects bones from infections & toxins. Zinc plays role in construction of baby's cells & DNA during pregnancy.

**Magnesium** assures strength & firmness of bones & teeth in baby. It is essential for absorption & metabolism of calcium. Magnesium & calcium work together, so deficiency of one affects metabolism of other. Magnesium relaxes muscles, while calcium stimulates muscles to contract. During pregnancy, magnesium can help to prevent uterus from contracting prematurely. It is an essential factor in 80% of all cellular enzymes. Magnesium is necessary for conversion of vitamin D into its active form. Bones act as a storage reservoir, transferring magnesium into blood stream in times of need. Low magnesium intake, as well as low blood & bone magnesium levels, has been associated with osteoporosis in women. Daily intake of magnesium is important throughout life to keep the magnesium in the bones from being lost.

## Ingredient Information :

Vitamin D<sub>3</sub> (as Cholecalciferol), Calcium Carbonate, Magnesium, Zinc

## Dose & Direction to Use:

As food supplement, teens, adults & elders:

Take one tablet two times a day, after consultation with their health professional.

Take it with meal or as directed by health care professional.

For easier swallowing, take with water before and during ingestion.

**2 x 15  
Tablets**

Manufactured By:

CLAPS Industries Pvt. Ltd.

-380015, Gujarat - INDIA.

# Calcium with Vitamin D3, Zinc & Magnesium (Tablet)

The Magnificent **Calcium** Formulation

Keeps Bone Fit  
&  
Healthy

## Benefits :

- Calcium helps to build strong bones and teeth.
- Calcium helps in maintenance & prevention of bone degradation.
- Calcium strengthens bones and may help to prevent osteoporosis.
- Calcium supports the health of the musculoskeletal system.
- Vitamin D3 is essential nutrient for calcium absorption.
- Vitamin D3 may help to reduce the risk of bone disease later in life and supports bone repair.
- Vitamin D3 helps to restore calcium level back to their natural state.
- Vitamin D3 helps in muscle contraction and prevents muscle weakness.
- Vitamin D3 helps to reduce risk of fall and fractures.
- Zinc and Magnesium assist the body with healthy bone formation & teeth health.

## Nutritional Information:

**Calcium** is essentially a building block of bone, and it helps to maintain bone strength throughout human life. Calcium and vitamin D work together to protect human bones. Calcium helps to build and maintain bones, while vitamin D helps human body effectively absorb calcium.

**Vitamin D3** is also known as cholecalciferol which is converted to Calcitriol by the liver and kidneys. As a hormone, Calcitriol controls calcium and bone metabolism. It is crucial for promoting calcium absorption in the bones. Vitamin D3 has ability to improve bone health and the health of the musculoskeletal system.

**Zinc** has a stimulatory effect on bone formation and mineralization. Zinc is also implicated in the stimulation of collagen production. Another major contribution of zinc to bone health is its ability to stimulate osteoblasts and inhibit osteoclasts. Osteoblasts and osteoclasts are bone cells.

**Magnesium** assures the strength and firmness of bones and makes teeth harder. Since magnesium participates in an astonishing array of biochemical reactions, it is essential for healthy bones and teeth. Adequate magnesium is essential for absorption and metabolism of calcium.

## Calcium Which Makes You Physically Active

### Dose & Direction to use:

- As food supplement, teens, adults and elder persons : One tablet, two times a day, after consultation with health professional to avoid any allergic reaction.
- Take it with meals or as directed by a health care professional.
- For easier swallowing, take with water before and during ingestion.

### Ingredient Information :

Calcium citrate malate, Vitamin D3, Zinc, Magnesium

# POWERCLAP Capsule

Supplements For Energy And Healthy Life

**Takes Back to Best Performance**

## Benefits :

- Boosts Immunity, Boosts Desire and Boosts Energy.
- Enhances sexual attraction.
- Generate energy and supports growth of body.
- Helps to reduce stress and promotes relaxation.
- Maximizes activity levels and physiological performance of body.
- Maintains overall health by active role of all vitamins, minerals and ginseng in body.

## Nutritional Information

**Ginseng** enhances the libido and copulatory performance. The effect of ginseng on corpus cavernosa appears to be mediated by the release of nitric oxide from endothelial cells and forms nerves that surround the vessels. Ginseng treatment decreases prolactin secretion. High level of prolactin inhibits libido.

**Asian ginseng** boosts the immune system, which helps the body fight off infection and disease. It helps to reduce risk of getting a cold or flu and improves blood flow throughout the body. Also control hormone activity and the regulating mechanisms of nerves. In that way, maintains the energy of the body.

**Multivitamins** maintain good health of whole body by strengthen and protect important parts of body.

**Mineral** supplements help to regulate all metabolic reactions in body.

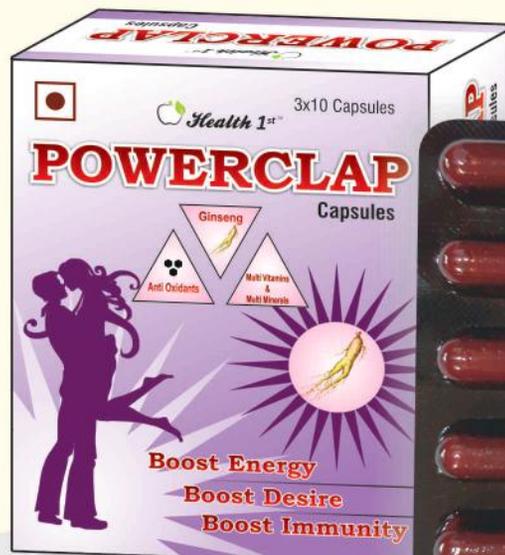

**Antioxidant** protects cells, tissues and organs from damaging effects caused by 'free radicals'

**Boost Energy**  
**Boost Desire**  
**Boost Immunity**

### Dose & Direction to Use :

As a food supplement, 1 serving daily or as directed by health professional.

Male and female over age of 18 years.  
It is not indicated during pregnancy and lactation.

**3 x 10 Capsules**

### Ingredient Information :

Ginseng Extract Powder, Vitamin C, Vitamin B3, Vitamin B5, Vitamin E, Vitamin B2, Vitamin B1, Vitamin B6, Vitamin A, Folic Acid, Vitamin D3 (Cholecalciferol), Vitamin B12 (Cyanocobalamin), Calcium, Phosphorus, Iron (as Ferrous Fumarate), Zinc, Magnesium, Potassium, Iodine, Manganese, Copper.

# PROTIMOM POWDER

Specially formulated for pregnant lady  
and MOM with CHILD

"Nutrition requirements increase tremendously during pregnancy & lactation as expectant or nursing mother not only has to nourish herself but also growing foetus and infant who is being breast fed"

## Benefits :

- Supplies optimal levels of nutrients.
- Essential for normal metabolism and physical wellbeing of expecting mothers.
- Folic acid prevents neural tube birth defects.
- Prevents nutrient losses that can occur during pregnancy.
- Provides antioxidant support.
- Helps to support fetal development.
- DHA helps for vision and brain function development.
- Shatavari helps to enhance female fertility, breast milk in lactating one & reduces miscarriage.

## Nutritional Information:

**DHA** is a major structural fat and it accumulates both prenatally and postnatally in infant brain, eye and nervous system tissue.

**Protein** is a vital building block of body. It uses to create skin, muscle, hair, and bones. That's why it's crucial when woman is pregnant, so both for her baby (to ensure normal growth and prevent low birth weight) and for her (to maintain her body's tissue health)

**Shatavari** promotes maternal health and noted its meticulous use as a galactagogue (enhances breast milk secretion in lactating mothers).

**Vitamins and Minerals** needed more during pregnancy than before. Because body uses vitamins, minerals and other nutrients from food to help it stay strong and healthy and during pregnancy, growing baby gets all the nutrients from mother.

**Folic acid** is a B vitamin that every cell in body needs for healthy growth and development.

**Iron** is a mineral. Body uses iron to make hemoglobin, a protein that helps carry oxygen from lungs to the rest of body. Mother needs twice as much iron during pregnancy.

**Calcium** is a mineral that helps your baby's bones, teeth, heart, muscles and nerves develop.

**Iodine** is a mineral. Body needs to make thyroid hormones. Mother needs iodine during pregnancy to help baby's brain and nervous system develop.

## Special Moments of Special Women

### Recommended For :

- Pregnant
- Nursing Women.

### Dose & Direction to Use :

Take 2 to 3  
tablespoonful of  
Powder in a cup.

Add a little warm  
milk and make a  
smooth paste.

Add milk while stirring  
briskly to fill the cup.  
You may add sugar if  
needed.

Take 2 -3 times a day as suggested  
by health professional

### Ingredient Information :

Skimmed Milk Protein, Whey Protein, Calcium, Omega 3 fatty acid, DHA (Docosahexaenoic acid), Vitamin C, Magnesium, Vitamin B3, Zinc, Vitamin E, Manganese, Calcium, Vitamin B5, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin A, Folic Acid, Iodine, Selenium, Vitamin B12, Shatavari powder, Fine sugar.

200gm

# PROTIVITA MG POWDER

Provides Full Complement Of Nutrients  
For Daily Metabolic Process And For Immunity Of Body

“An excellent health formula makes everyone Active & Healthy in entire family”

## Benefits :

- Helps to maintain optimal health by supporting daily metabolic processes.
- Supplies essential nutrients that may be missing from the diet.
- Provides natural antioxidant support.
- Useful for general weakness, anorexia, growth & health maintenance.
- Provides support of immunity.
- Improves function of brain, retina, heart and other parts of nervous system.
- Provides energy to body.

## Nutritional Information:

**Bovine colostrum** can be used to stimulate immunity and works efficiently as an antiviral.  
**Omega-3 fatty acids** is essential fatty acids for optimal functioning of the body.  
**DHA** is long chain fatty acid .It ensures that the cells in the brain, retina, heart and other parts of the nervous system develop and function properly through all stages of life.  
**Whey Protein** is the purest and most essential form of protein. It provides quick nourishment to muscles, helping in strengthening the immunity and stays healthy.  
**Vitamins and minerals** are considered essential nutrients. They convert food into energy, and repair cellular damage.  
**Folic acid** is a B vitamin. It helps to keep heart healthy.  
**Vitamin E** is a powerful antioxidant which protects body from free radicals.  
**Vitamin B12** is one of the important vitamin required by the human body to function optimally.  
**Chromium** supplement promotes healthy glucose level in body which provides energy to body.  
**Bitter Gourd's** pods are rich sources of phytonutrients like dietary fiber, minerals, vitamins and antioxidants.

For Happy & Healthy Family

### Recommended For :

**Adult (Man & Woman)**  
Above 18 years  
**Elder**

Should consult the health professional before use.

**Diabetics**

Take this supplements with consultation of their health professional before use

**The pregnant women and lactating women**

Should consult the health professional before taking this supplement.

Contains Sucralose, Not recommended for children.  
No sugar added in the product.

### Dose & Direction to Use :

- Take 2 to 3 tablespoonful of powder in a cup.
- Add a little warm milk and make a smooth paste.
- Add milk while stirring briskly to fill the cup.
- You may add sugar if needed.

200gm

### Ingredient Information :

Skimmed Milk Protein, Whey Protein Concentrate, Calcium, Omega 3 fatty acid, DHA (Docosahexaenoic acid), Colostrum IgG, Vitamin C, Magnesium, Niacinamide, Zinc, Vitamin E, Manganese, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin A, Folic Acid, Iodine, Selenium, Vitamin B12, Chromium Bitter Gourd powder.

# MEXIFERT

## TABLETS

Improve Men Fertilizing Potential, By Improving Sperm Parameters

Maximize  
Sperm Count  
Sperm Health  
Sperm Motility

### Benefits :

- Helps to maximize the health and motility of sperm.
- DHA, one of the fatty acids has a significant impact on the viability enhancement of sperm.
- It is essential for sperm production, formation, and maturation.
- Improves sperm count, quality in men. It is also a potent antioxidant blend.
- Helps to reduce the incidence of oxidative stress which is helpful in sperm health.

### Nutritional Information:

**Coenzyme Q10** is a powerful antioxidant. It protects the sperm and also it supports motility of sperm by increasing cellular energy. Cellular energy powers the tail whip of sperm. The higher the blood levels of CoQ10, the greater the sperm's ability to be strong swimmers.

**Omega-3 fatty acid** is polyunsaturated fatty acids. Sperm cells require highly polyunsaturated fatty acids, in particular a high proportion of DHA to provide optimal cell membrane fluidity essential to sperm motility and fertilization success.

**L-arginine**, an amino acid, is essential for sperm production, formation, and maturation. L-arginine is important for healthy sperm, essential for the production of putrescine, spermidine and spermine. These polyamines are important for initiating the spermatid motility processes.

**L-Carnitine-L-Tartrate** reduces purine catabolism and free radical formation. The health and viability of sperm depend on the amount of antioxidant protecting them from the damaging effects of oxidation products. The number of sperm will be increased also.

**Wheat germ oil** reputed as a "fertility vitamin" earlier because of the high content of vitamin E. Vitamin E is a powerful antioxidant.

**Lycopene & Selenium** have antioxidant property.

Enjoy The Happiness of  
Fatherhood

### Dose & Direction to Use :

As a Food Supplement,  
1 serving daily  
or as directed by health professional.  
For adults men only,  
mainly suffering from  
sexual & fertility related  
issues.

1 x 10  
Tablets

### Ingredient Information :

Flaxseed powder, Coenzyme Q10, L-Arginine, L-Carnitine, L-Tartrate, Wheat germ oil, Lycopene 6%, Piperine, Selenium.

# ARGICLAP POWDER

for Men & Women

The Best Choice in Infertility Issue

Brings Happiness Back in Couple Life By Converting Their Hopes in to Reality

## Benefits :

- L- arginine is taken as a supplement by couples facing fertility issues.
- L-arginine helps to increase sperm production & mobility in men.
- L-arginine helps to increase health and vitality of cells around the egg & also protect the cells.
- L-arginine helps to keep the health and viability of sperm.
- Myo-inositol helps to improve egg quality in women.
- Amino acids are important for optimal fertility.

## Nutritional Information:

**L- arginine** is an amino acid which increases blood flow to the uterus which creates a better environment to allow the implantation of a fertilized egg in women. Also it increases sperm production and improves the motility of sperm in men, thus increasing the chance of conception in couples suffering from low sperm motility. As antioxidant, it protects the cells around the eggs from damaging effects of oxidation.

**Grape seed extract** contains proanthocyanidins which is a powerful antioxidant used in improving the overall male sexual health.

**Myo-inositol** maintains insulin level which helps in improving egg quality in women. It plays role in spermatozoal maturation at the time of their migration from the epididymis, that is the section of male genital apparatus where myo-inositol level is greater than that contained in testicles. Myo-inositol deficit is correlated also to the reduced production of spermatids, that differentiate into mature spermatozoa through spermiogenesis. In addition, myo-inositol plays an essential role in the stabilization of tubuline, a fundamental protein for spermatozoal motility and acts as an antioxidant agent at mitochondrial level, thus counteracting free radicals action.

**Isoleucine, leucine, and valine** amino acids are all important for optimal fertility as it maintain healthy hormone balance, healthy cells and healthy embryo development. And some non-essential amino acids such as arginine which is important for healthy sperm.

Maximizes Sperm Production & Motility, Improves Egg Quality

### Recommended For :

- Adults (Men & Women) only.
- Do not take if pregnant or lactating.
- Dose : One sachet per day or consult health professional before using it, to avoid any allergic reaction.

### Dose & Direction to use :

- Empty the powder from the sachet into a glass.
- Add 100 ml of water.
- Stir well until the powder is evenly dispersed in the water and drink immediately.

### Ingredient Information :

L-Arginine, Grape seed extract, L-Lysine hydrochloride, L-Leucine, L-Isoleucine, L-Valine, L-Phenylalanine, Glycine, Myo-Inositol.

10 x 4.5gm  
Sachet

# NATURAL FISH OIL WITH MULTIVITAMINS (Syrup)

The Complete Health Solution For Family

For good health of  
Brain, Heart, Hair,  
Eye & Bone

## Benefits :

- Omega - 3 intake especially EPA is important for maintaining healthy heart and blood circulation.
- Vitamin A is important to strengthen brain cells, memory, eye sight and healthy hairs.
- Vitamin D is important for strong bones and teeth. It is required for healthy skeletal system.
- Vitamin E helps to protect against free radical and oxidative damage.
- Vitamin K2 helps to build up strong bone & teeth.
- It helps to support the development of brain, eye and nerves in children.
- It helps to support cognitive health and its functions.
- Rich source of Omega 3 is good for maintenance of health.

## Nutritional Information:

**Omega-3 fatty acids** are an integral part of cell membranes throughout the body and affect the function of the cell receptors in these membranes. They provide the starting point for making hormones that regulate blood clotting, contraction and relaxation of artery walls, and inflammation. They also bind to receptors in cells that regulate genetic function.

**Vitamin A**, also known as Retinol, is important to strengthen our brain cells, memory, eye sight and for healthy hairs.

**Vitamin D** promotes calcium absorption in the gut and maintains adequate serum calcium concentrations to enable normal mineralization of bone and teeth.

**Vitamin E** is an antioxidant that protects body tissue from damage caused by substances called free radicals.

**Vitamin K2** helps to move calcium into the proper areas in human body, such as bones and teeth. It also helps to inhibit incorporation of calcium in arteries and soft tissues, by that helps to protect the heart.

Enjoy The Richness  
of Life

## Dose & Direction to Use:

Adults and children over 4 years: 10 ml daily or as suggested by health professionals.

Children (1 to 3 years): 5 ml daily or suggested by health professionals.

Infants (above 6 months to 1 year): 2.5 ml daily or as suggested by health professionals.

200ml

Orange  
& Cherry  
Flavour

## Ingredient Information :

Fish Oil (Omega 3 fatty acid (EPA & DHA), Omega 6 fatty acid), Vitamin E, Vitamin D, Vitamin K, Vitamin A

# NATURAL COD LIVER OIL (Soft Gel)

The Best Natural Health Care Supplement

A Good Source  
of Vitamin A, D3  
and Omega 3  
Fatty Acid

## Benefits :

- Maintains the eyesight, skin membrane and the immune function of body.
- Helps in development and maintenance of night vision, bones and teeth.
- Helps in the absorption and use of calcium and phosphorus.
- Helps to prevent dry eyes and night blindness.
- Maintains the heart & brain functions.

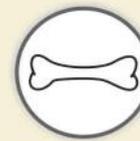

## Nutritional Information:

**Vitamin A** also known as retinol because it produces the pigments in the retina of the eye and ensures a healthy retina and also prevents night blindness by increasing the adaptability of the human eye to both bright light and darkness.

**Vitamin D3** is essential for the absorption and utilization of calcium which is required for teeth and bone growth.

**Omega-3 fatty acids** is essential fatty acids for optimal functioning of the body. It helps to boost the immune system by enhancing the function of immune cells. It also regulates and maintains healthy cardiovascular function. It ensures that the cells in the brain and other parts of the nervous system develop and function properly through all stages of life.

Vision, Bone, Skin  
and Immune Function

## Dose & Direction to Use:

Adults and children over 12 years:  
one capsule twice a day with  
cold drink and after meal or  
suggested by health professionals.

## Ingredient Information :

Cod liver oil, Omega-3 fatty acids, Vitamin A, Vitamin D<sub>3</sub>

# IMUPOWER (Tablet)

A Revolutionary Approach in Crucial Health care Supplement

Immune Boosting  
&  
Enhancing  
Healthy Lifestyle

## Benefits :

- Maintains body's immune functions well.
- Asian ginseng helps to reduce risk of getting a cold or flu.
- Lutein and Zeaxanthin help to reduce the risk of chronic eye diseases.
- Antioxidant protects cells, tissues and organs from free radicals' damage.
- Multivitamin supplements help to reduce deficiencies which can contribute to chronic conditions.
- Mineral supplements help to regulate all metabolic reactions in body.
- Mineral supplements also help to generate energy.
- Supports growth & physiological performance of body.

## Nutritional Information:

**Colostrum** is used for boosting the immune system, healing injuries, repairing nervous system damage, improving mood and sense of wellbeing, slowing and reversing aging and as an agent for killing bacteria. It is also helpful to treat inflammation of the colon (colitis).

**Ginkgo Biloba, Grape seed extract, Green Tea Extract, Coenzyme Q10, Betacarotene, Citrus Bioflavonoid, Wheat Germ Oil and Lycopene** are highly potent antioxidants to support the immune system, help to reduce inflammation and protect the body against free radical damage.

**Omega 3 fatty acid** (Flax seed) helps the immune system in preventing illness.

**Asian ginseng** boosts the immune system which helps the body fight off infection and disease.

**Lactobacillus** as probiotic is good for digestive system.

**Biotin** helps to metabolize carbohydrates, fats and amino acids, the building blocks of protein.

**Antioxidant, vitamins and minerals** can help human body to fight off infection by maintaining healthy immune system.

**Brings Happiness  
Back to The Family**

## Dose & Direction to Use:

As a Food supplement, 1 serving daily or as directed by healthcare professional.  
To be taken by male and female over age of 12 years. Consult health professional for continuation to this supplement.

**Elder** : Should consult their health professional before use.

## Ingredient Information :

Omega 3 fatty acid, Asian Ginseng, Colostrum, Ginkgo Biloba, Grape Seed Extract, Green Tea Extract, Coenzyme Q10, Betacarotene, Citrus Bioflavonoid, Fructooligosaccharides, Wheat Germ Oil, Lycopene, Lutein, Zeaxanthin, Lactobacillus spores, Vitamin C, Vitamin B3, Vitamin E, Vitamin B5, Vitamin B1, Vitamin B2, Vitamin B6, Folic Acid, Vitamin A, Vitamin B12, Vitamin D3, Calcium, Phosphorous, Zinc, Magnesium, Iron, Manganese, Chromium Chloride, Copper, Biotin, Iodine, Selenium, Sodium Molybdate.

**1 x 10  
Tablets**

# NATURAL PROVIT-WG

Protein Powder for Weight Gain  
Vanilla Delight Flavour

Witness the Ripple of  
Joy with Extra Energy

## Benefits :

- Provides all essential nutrients required by the body.
- Provides the high amount of calories for gym sessions.
- Helps in muscle building and recovery.
- Supply the energy required for heavy workouts.
- Helps to produce hormones, builds cell wall and absorb the fat soluble vitamins.
- It's beneficial to those adults who are physically or mentally ill.

## Nutritional Information:

**Carbohydrates** are digested quickly so it make more hungry again soon after eating them. It cause blood sugar fluctuations, which bring on a feeling of hunger and food cravings. When blood carbohydrate is spiking, pancreas produces insulin to maintain optimal blood sugar levels. The more insulin in blood, body converts carbs to fat more and then it gets stored in our body. If continue to eat a lot of carbohydrates, the resulting high insulin levels reduce body's ability to burn that stored fat and because of that increases the weight.

**Fat** is valuable tool for bulking. Our bodies need some fat to produce hormones, builds cell wall and absorb the fat soluble vitamins and carry out various body functions.

**Creatinine** produces more ATP, which aids muscle repair and new muscle growth and also increases muscle mass. More creatinine in the muscles means muscles get to work longer and at higher intensity.

**Combination of multivitamins and multi minerals** which help to fulfill the recommended amounts of vitamins and minerals which are usually not fulfilled by food alone.

**Boost Confidence,  
Boost Performance,  
Boost Muscle Mass**

### Recommended For :

**Adult :** (Man & Woman) : Above 18 years.  
Elder : Should consult the health professional before use.

**The pregnant women and lactating women :**  
Should consult the health professional before taking this supplement.

### Dose & Direction to Use:

Take 2 or 3 tablespoonful one time in a day Or as suggested by health professional.

**The Elders :** (For general ill health) :  
Can take it after consultation with their health professionals.

400gm

### Ingredient Information :

Skimmed Milk Protein 10 %, Whey Protein, Creatine Monohydrate, Medium chain triglyceride (MCT), Calcium carbonate, Omega 3 fatty acid, Vitamin C, Magnesium, Niacinamide, Zinc, Vitamin E, Manganese, Calcium Pantothenate, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin A, Folic Acid, Iodine, Selenium, Vitamin B12, Sugar.

# NATURAL PROVIT-WM

Protein Powder for Weight Management

Sugar Free | Vanilla Flavour

Burning fat daily is possible with an increased metabolism

**Stay Fit,  
Feel Light,  
Look Good**

## Benefits :

- Helps to keep fit and in good shape.
- Provides energy to perform daily activities.
- Keeps digestive tract clean & healthy to minimize weight.
- Increases fat metabolism.
- Controls appetite & hinders absorption of fat.
- Provides balanced nutrition.
- Maintains good health and supports healthy digestive function.
- Provides relief from occasional constipation & gently cleanses the colon.
- Keeps a healthy balance of intestinal flora & stimulates the growth of beneficial, "friendly" bacteria.
- Helps to reduce bloating and stomach discomfort and enhances overall health well being

## Nutritional Information:

**Health 1<sup>st</sup> PROVIT – WM Powder** is a balanced nutritional food which contains proteins, fibers, vitamins, minerals and probiotics required for a healthy body. It provides energy to perform daily activities.

**Digestive fiber** helps to keep digestive tract clean and healthy to minimize weight. It increases fat metabolism, controls appetite and hinders absorption of fat and helps to keep fit & in good shape. Fibre increases bulk and aids in the transit of food through the intestines, provides relief from occasional constipation and gently cleanses the colon. It also aids in eliminating unwanted toxins from the body.

**Probiotics** keep a healthy balance of intestinal flora by reducing the amount of harmful bacteria in the digestive tract and stimulating the growth of beneficial, "friendly" bacteria. Probiotics also help to reduce bloating and stomach discomfort and enhances overall health well being and acts as a complete protein supplement.

**Sucralose** is not recognized by the body as a carbohydrate, it has zero calories and is also beneficial for people trying to reduce their sugar or calorie intake as it is sugar free.

**Vitamin A, D, E, K** act as antioxidant. It reduces oxidative stress and increase immunity.

**Vitamin B6 and B12** increase brain function and red blood cell production.

**Calcium, magnesium and potassium** help to support muscle building and bone mineralization.

## Recommended For :

Above 18 years.  
Not recommended for old age people.  
The pregnant women and lactating women should consult the health professional before taking this supplement.

## Dose & Direction to Use:

Take 1 or 2 scoops (Around 15 gm) 2 to 3 times every day by preparing as per direction given to use, the same can be used as meal replacement or as suggested by health before use.

## Ingredient Information :

Fiber, Milk powder, Vitamin A, Vitamin C, Vitamin E (Powder), Vitamin D, Vitamin K, Folic acid, Vitamin B6, Vitamin B5, Vitamin B12, Calcium citrate (eq. to Elemental Calcium), Sodium chloride, Potassium chloride, Magnesium, Probiotic (Lacto bacilli).

**500gm**

# PROVIT-WG ULTRA

Protein Powder for Body Building  
Chocolate Flavour

Gives Good Looking  
Body Shape as Desire

Do More with  
Extra Energy

## Benefits :

- Helps to strengthen the skeletal muscles.
- Repair the damaged muscle tissues.
- Increases muscle volumization.
- Improves physical & mental performance.
- Reduces mental fatigue.
- Muscles work faster & longer.
- Also recovers faster after intense exercise.
- Increases lean body mass, strength and muscle size.
- Improves recovery from exercises.

## Nutritional Information

**Health 1<sup>st</sup> Natural PROVIT - WG Ultra Powder** contains a combination of whey proteins, multi-vitamins and multi-minerals which provides a complete and balanced protein supplement. It is usually beneficial when taken in addition to the regular diets.

**Proteins** help to strengthen the skeletal muscles and can repair the damaged muscle tissues.

**Combination of carbohydrates and proteins** significantly help those individuals who are going through resistance training.

**Creatinine** not only improves physical performance but also reduces mental fatigue and improves mental performance. It helps to make more fuel available to the muscle in the form of ATP. This extra fuel ensures that the muscles work faster and longer and recovers faster after intense exercise or sustained physical activity.

**Whey proteins** in combination with strength training exercises increases lean body mass, strength and muscle size. Also, whey protein improves recovery from exercises better than carbohydrates. Whey proteins also aid in muscle recovery following a highly demanding resistance exercise. It is observed that whey protein causes a reduction in muscle damage.

**Combination of multivitamins and multiminerals** help to fulfill the recommended amounts of vitamins and minerals which are usually not fulfilled by food alone.

## Dose & Direction to Use:

Twice a day recommended as per direction below :

1. Fitness savvy & health conscious persons ( Age : Above 18 years )  
Add : One scoop ( 30 gms ) in 180 ml milk fresh fruit juice & stir vigorously

2. For Athletes, those who work out in gyms (Age : Above 18 years )  
Add : Two scoops ( 60 gms ) in 270 ml milk, fresh fruit juice, stir vigorously

Not recommended for old aged people & Diabetics  
The pregnant women and lactating women should consult the health professional before taking this supplement.

2lbs

## Ingredient Information :

Milk protein (30 %), Whey Protein (80 %), Creatine monohydrate, Vitamin A (Concentrate), Vitamin B1, Vitamin B2, Vitamin B12, Vitamin D3, Phosphorous, Calcium, Niacinamide, Vitamin B6, Vitamin C, Iron, Zinc, Potassium, Vitamin E, Folic acid, Sugar.

# INSTABOOST (Powder)

Dextrose with Electrolytes Drink

**Boosts  
Strength,  
Energy &  
Stamina**

## Benefits :

- As energy drink suitable nutrition or as source of nutrition for patients at risk of malnutrition.
- Sodium can help in restoring and maintaining water balance.
- For athletes, to use powered dextrose after workouts to boost energy levels in muscle.
- Athletes performing high intensity activity.
- Sodium may help to rehydrate faster.
- In case diarrhoea in children, lactobacillus along with antibiotics provides relief.
- Zinc also helps to control diarrhoea.

## Nutritional Information:

**Dextrose** has a high glycemic index ranking at 100. This means that dextrose will quickly raises blood glucose levels & so useful when rapid supply of energy is required.

**Vitamin C** as antioxidant helps the body gracefully recovers and prevents the damage from free radicals.

**Zinc** supplementation has been found to reduce the duration and severity of diarrhoeal episodes and likelihood of subsequent infection for 2-3 months.

**Sodium** supports healthy hydration, nerves and muscle function.

**Potassium** supports healthy hydration and is especially important for normal muscle contraction.

**Lactobacillus** as probiotic is good for health, especially for digestive system.

**Gives You  
Instant Energy**

**10 Sachets  
of 4gm**

## Dose & Direction to Use :

- Athletes
- Adults & Elders
- Patients at risk of malnutrition.
- Children suffering from diarrhoea.

Add 1 Sachet contents into approx. 100ml water. Add more water if required as per your taste. Drink immediately.

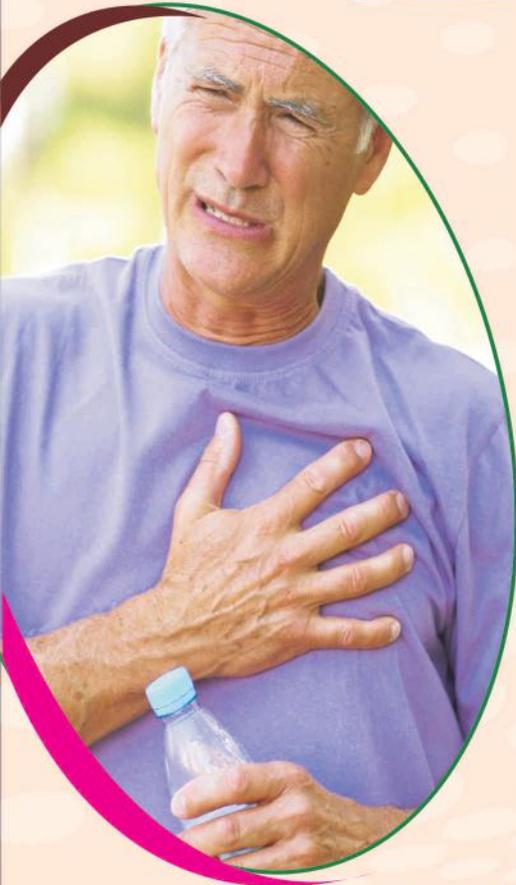

## Ingredient Information :

Dextrose, Zinc, Sodium, Potassium, Vitamin-C, Lactobacillus

# VITCLAP CARDIO (Capsule)

Improves Cardiac Health & Overall Blood Circulation

Do what it takes  
to start to have a  
healthy heart

**Supports  
Heart Health**

## Benefits :

- Improves overall blood circulation.
- Maintains normal control on heart function.
- Provides energy to heart for continuous work.
- Prevents damage from free radicals.
- Increases higher levels of HDL cholesterol.
- Helps to decrease risk for arrhythmia & thrombosis.
- Helps to decrease triglyceride and remnant lipoprotein levels.
- Helps to decrease the chances of a stroke, heart attack & abnormal heart rhythms.
- Reduces blood pressure and provides relaxation to arteries.
- Relaxes blood vessels and keeps blood flowing easily.

## Nutritional Information:

**Coenzyme Q10** helps to prevent the aging of the heart and also balance the blood pressure and cholesterol.

**Omega-3 fatty acids (From Flaxseed)** may reduce inflammation throughout the body. It increases higher levels of HDL cholesterol which promotes heart health. It is useful for eliminating fats in the blood, by itself, significantly decreases the chances of a stroke, heart attack & abnormal heart rhythms.

**Pycnogenol** relaxes major arteries by stimulating of eNOS, the enzyme system that produces nitric oxide. It inhibits platelet and white blood cells to clump along the walls in early stages of plaque formation.

**Garlic** is rich in antioxidants which fight off free radicals and may reduce progression of coronary artery disease. It reduces blood pressure, allowing the blood to carry more oxygen to essential organs and reducing pressure on the heart.

## Dose & Direction to Use:

Dose should be decided as per age and condition of patient. The individual should consult the health professional before use. As a food Supplement, 2 Serving daily or as directed by health professional for patient suffering from cardiac abnormalities . The pregnant and lactating women should take this supplement as per direction of gynecologist. Not recommended for children.

**10  
Capsules**

## Ingredient Information :

Flaxseed Powder (Omega 3 fatty acid), Coenzyme Q10, Pinebark Extract (Pycnogenol), Garlic extract.

# VITA SWIFT (Tablet)

Rich in Vitamins like Methylcobalamin, Vitamin B<sub>1</sub> and Vitamin B<sub>6</sub>  
Revitalize Neurons More Effectively

Add Tremendous  
Power in your  
Life

Makes Family  
Active & Energetic

## Benefits :

- Helps to provide better sleep & remove fatigue.
- Helps to provide daytime alertness, concentration & better mood.
- Helps to remove wear & tear feeling of stress.
- For nerve health and helps in formation of red blood cells.
- Helps in production of good DNA.
- Helps in functioning of the enzyme system.
- Keeps healthy, active, and energized.
- Helps to regulate internal clock.

## Nutritional Information:

**Methylcobalamin** is necessary for the conversion of methylmalonate to succinic acid, an important Krebs cycle intermediate in energy production. It helps to provide better sleep quality, daytime alertness, concentration and better mood, has positive effects on sleep due to its influence on melatonin secretion and light sensitivity of the circadian clock; it also helps normalize a person's 24-hour clock. It acts as a methyl donor and participates in the synthesis of SAM-e (S adenosylmethionine), a nutrient that has powerful mood elevating properties. Elevated homocysteine interferes with normal neurotransmitter functions. It also causes poor mood, fatigue and the wear and tear feeling of stress. Methylcobalamin helps humans to combat stress by conversion of homocysteine to methionine. Formation and regeneration of red blood cells can be seriously impaired by a lack of methylcobalamin.

**Vitamin B1** is required for the functioning of the enzyme system. It helps in conversion of sugar to energy in the body. It helps in the oxidation of sugar through enzyme system called the pyruvate dehydrogenase system. A deficiency of Vitamin B1 causes degeneration of myelin sheaths around nerves, which can result in nerve death and damage. It helps in the proper development of myelin sheaths around nerves. Thus, it requires for human memory and power of concentration. It plays an important role in the production of red blood cells, which in turn keeps people healthy, active, and energized.

**Vitamin B6** (pyridoxine) plays a role in the functioning of the hypothalamic/pituitary/adrenal (HPA) axis that modulates adrenal activity and the stress response. It is needed for proper brain development and its functions and to make the hormones serotonin and norepinephrine, which affect mood. It also helps the body to make melatonin, which is important in helping regulate your internal clock.

Vitamins B1, B6 and methylcobalamin support human body's metabolism and help body to produce essential substances, such as neurotransmitters and red blood cells. So body needs a regular supply of all three vitamins.

## Dose & Direction to Use:

As a food supplement, adults and children over 12 years of age take one tablet daily.

**Elder** : Should consult their health professional before use.

Available in Spray  
Form also

3 x 10  
Tablets

## Ingredient Information :

Methylcobalamin, Vitamin B6 (Pyridoxine hydrochloride), Vitamin B1 (Thiamine hydrochloride).

# NATURAL VITAMIN-E 400 IU SOFTGEL

POWERFUL ANTIOXIDANT

Rich Life with  
Rich Supplement

## Benefits :

- Maintains heart health well.
- Reduces the risk heart stroke and coronary artery disorder.
- Helps to reduce the risk of atherosclerosis.
- Helps to make immune system stronger.
- Helps to increase hair growth.
- Helps to slow down aging process.
- Helps to reduce dark spots and wrinkles.

## Nutritional Information:

**Vitamin E** has anti-inflammatory properties, which may help to reduce heart diseases by slowing the release of inflammatory substances that damage the heart. It inhibits blood clotting (platelet aggregation and adhesion) and reduces plaque enlargement and rupture. So it is useful to reduce the risk of heart stroke and coronary artery disorder. LDL-cholesterol is responsible for development of heart disease. Oxidized form of LDL may initiate the formation of an atherosclerotic lesions, which can result in blockage of blood vessels and causes atherosclerosis. Vitamin E can reduce LDL lipid peroxidation caused by free radical reactions and thus reduces the risk of atherosclerosis.

**Vitamin E** is necessary for proper immune system functions. Exposure to UV radiation, air pollution, smoking, and drinking alcohol are all known to cause oxidative stress by the release of free radicals and under oxidative stress, immune system gets weaker. Vitamin E has antioxidant properties. Antioxidants are important for their ability to scavenge free radicals. It also enhances the production of B-cells, the immune cells that produce the antibodies that destroy bacteria and maintain immune functions well.

**Vitamin E** helps to reduce hair loss in some persons also. It boosts the blood circulation in human scalp. Because of that the cells of the scalp and hair follicles get more of oxygen and produce more energy which is helpful in the growth of hair. Also essential nutrients reach the hair follicles in sufficient quantities so hair becomes healthy.

**Vitamin E** slows down the aging process and helps to reduce dark spots and wrinkles on skin by stabilizing the free radicals which is responsible for aging and scars on skin.

For Better Heart, Strong,  
Hair & Immune System,  
and For Glowing Skin

## Dose & Direction to Use:

As a Food supplement, 1 serving daily or as directed by health professional only in case of deficiency. To be taken by male and female over age of 12 years. Consult health professional for continuation to this supplement.

**Elder :** Should consult their health professional before use.

## Ingredient Information :

Vitamin E (Tocopheryl acetate) (400 IU)

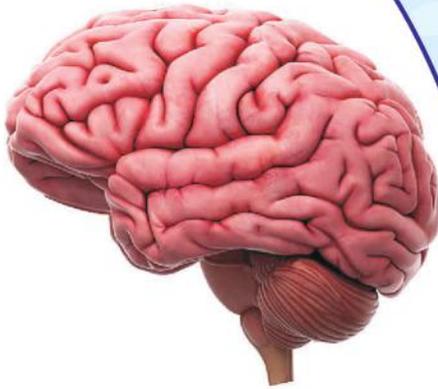

# RAMCLAP Tablet

Super Nootropic Formula

Enhances  
Concentration  
&  
Memory Power

## Benefits :

- Improves brain functions and concentration.
- Supports brain energy, protects nerves and brain cells.
- For attention and learning ability.
- Helps in inner calm in stressful situations.
- Provides a more peaceful and fulfilling sleep.
- Provides protection against typical age-related memory loss.
- A neuropathic pain reliever.
- Maintains a positive mood.

## Nutritional Information:

**Glutamic acid** is the precursor to GABA production. If the body has enough glutamine, it can build GABA which can have positive results to brain. GABA is the main inhibitory neurotransmitter of the CNS. It is well established that activation of GABA receptors favours sleep. Glutamic acid can detoxify ammonia and by that it gives protection against the cell toxins and improves long and short term memory.

**Methylcobalamin** eliminates excessive levels of homocysteine in the brain. This substance is often cited as the leading cause of vascular degeneration in the brain and it improves the health and function of nerves in the brain.

Unlocks Your  
Amazing Memory

### Dose & Direction to Use:

The dose can be decided based on the age & condition due to lack of memory & having brain issues due to deficiency of glutamic acid and methylcobalamin in individual patient after consultation of health professional.

**Adults (18 years & above):** Take 1 tablet per day and continue as per advice of health professional.

**Older People:** Take 1 tablet per day that can be increased after consultation with health professional.

10 x 10  
Tablets

### Ingredient Information :

Glutamic acid, Methylcobalamin

# PLAYMAX™

**CLAPS**  
Celebrating Healthy Life

(Female Intimacy Enhancement Moisturizer Cream)

**Fulfill Passion and  
Desire through Enhanced  
the Session and Prolonged  
Pleasure**

**Spice Up The Sex Life  
Maximizes Desire**

## Benefits :

- **Natural product with effective herbal blend.**
- **Increases sexual moments & pleasure in sensitive women.**
- **Gives greater intimate intensity.**
- **Naturally enhances self-confidence and satisfaction.**
- **Maintains pH balance.**
- **Safe and effective.**
- **For women including menopausal.**
- **It helps in vaginal dryness.**

### How does PlayMax help female in sexual dysfunctions?

PLAYMAX helps to increase the libido by increasing the estrogen hormone, enhancing sensitivity of the clitoris. Makes able to attain orgasm by increasing oxygen rich blood supply to vagina. It reduces pain or other distress turning penile penetration by lubricating the vaginal wall. It also maintains balance levels of estrogen and progesterone in the female body.

## Importance of Ingredients

**Wild yam root** contains the phytosterols, which are precursors to sex hormones, oestrogen and progesterone. **Damiana leaf extract** can stimulate the genital area by enriching the oxygen supply which enhances the sensitivity of the clitoris and intensifying sexual pleasure. It also helps to revive sex drive in premenopausal and menopausal women by replenishing depleted testosterone.

**Ginkgo biloba** maintains balance levels of estrogen and progesterone in the female body and can improve sexual drive.

**Peppermint** has aphrodisiac properties due to camphoreous scent. It produces a cooling and exciting sensation which makes the erogenous zones in women more receptive to sexual pleasure. It has also a warming effect on the blood. This dilates the blood vessels and aids the supply of oxygen-rich blood to various organs including the vagina among women.

**Visnadin extract** activates microcirculatory level which increases the volume of blood fast in the genital area. It provides natural lubrication of the vaginal wall.

**Allantoin** has a soothing and moisturizing effects which helps to reduce itchy and burning sensation of the intimate.

**Suma root extract** can be helpful for encouraging estradiol-17 beta, an estrogen hormone which improves hormone balance.

**Lactic acid** is vital in protecting female intimate zone. It keeps the pH in the vagina low, which maintains the vagina's acidic protective layer. Lactic Acid is very important in keeping the vagina safe from infection.

**Aloe vera extract** has the capacity to stimulate libido production. The smooth clean skin elaborates cuddling and general romance during foreplay. It works as skin protectant. It keeps skin moist, thus prevents vaginal dryness.

**Vitamins A, C and E complex** has anti-oxidant properties which flux toxins from skin.

### Direction to Use:

Open the cap. Press the tube to squeeze out cream small quantity in cleaned finger. Apply gently on clitoris and adjacent area prior to sexual performance. Increase the use to get desired effect. Wait for 3-4 minutes after application.

### Ingredient Information :

Aloe vera leaf extract, Visnadin extract, Allantoin, Suma root extract, Ginkgo biloba extract, Lactic acid, Wild yam root extract, Damiana Leaf extract, Peppermint oil, Vitamin A, C & E complex, Perfume.

**50gm**

# P-STRONG<sup>TM</sup> ♂

(Male Intimacy Enhancement Moisturizer Cream)

**CLAPS**<sup>®</sup>  
Celebrating Healthy Life

Live Healthy And  
Happier Sexual Life

**Enhances  
Lovemaking Pleasure**

### Direction to Use:

Open the cap.  
Press the tube to squeeze out  
cream and take in cleaned hands.  
Apply, rub & circulate the cream on  
intimate skin gently for few  
minutes to get desired effect.

### Ingredient Information :

Ginkgo biloba extract, Aloe vera leaf extract, Cranberry extract,  
Ginseng extract, Jaiphul oil, Allantoin, Glycerin, Perfume.

### Benefits :

- Natural product with effective herbal blend.
- For normal as well as men suffering from sexual erectile dysfunction.
- Increases sexual stamina & performance.
- Improves blood supply in penile region & stimulates erection strength.
- It provides softness, flexibility, creaminess to skin.
- It enhances libido in men & increases sexual desire in men.
- It increases the water content in skin and leaves it hydrated.
- It helps in controlling the amount of oil in the skin.
- It cleans and clears skin from bacteria and other debris.
- Safe and effective. Can be used along with latex condom.

### How does P-Strong Cream help males in sexual dysfunctions?

P - Strong Cream helps males to solve problem of erectile dysfunction by increasing sexual stamina and making penile region firmer and stimulates erection strength. Also improves libido or sexual interest by reducing problem of erectile dysfunction. It boosts the nitric oxide which inhibits seminal emission, probably by decreasing sympathetic nervous system activity; this may help in premature ejaculation.

### Importance of Ingredients

**Ginseng extract** is believed to enhance testosterone production.

**Ginseng and Ginkgo biloba** increase the production of nitric oxide synthase, an enzyme that relaxes the smooth muscle of the penis, thus increasing blood flow and erectile function.

**Jaiphul oil** dilates and enlarges the blood vessels to receive more blood and gain bigger and firmer erection. It strengthens the weak nerves and tissues in the reproductive organs and shuts the ejaculatory valve to maintain stiffness of the male organ for the complete love act.

**Cranberry extract** clarifies the open pores and removes excess dirt & controls the amount of oil in the skin.

**Aloe vera leaf extract** has anti-bacterial and anti-inflammatory properties.

**Glycerin** has ability to attract moisture from the air and hold it which provides softness, flexibility, creaminess to skin.

**Allantoin** helps to moisturize and soften skin and acts as a keratinolytic.

100 gm

Available  
in Liquid  
form also

100 ml

**"Makes Skin Brighter & youthful"**

**Bring Back  
Natural Appearance**

**Achieve The  
Dream Look**

**Direction to Use:**

Clean face and neck.  
Apply gently on cleaned face  
and neck in morning  
and evening daily.

**Benefits :**

- LA SPLENDRA skin brightening cream helps to make complexion clear.
- It helps skin to be radiant and smooth.
- It improves elasticity and tighten the skin.
- It lightens the skin and reduces dark spots.
- It soothes acne and reduces skin blemishes.
- Restores skin suppleness, moisturizes the skin.
- It rebuilds youthful skin

**How does LA SPLENDRA skin brightening cream improve dull complexion?**

LA SPLENDRA skin brightening cream is designed to improve a dull skin complexion through exfoliation. It also contains ingredients designed to lighten the skin. These ingredients work to inhibit the production of melanin and improve the appearance of sun damaged skin, liver spots, acne scars, freckles or hyper pigmentation.

**Importance of Ingredients**

**Liquorice extract** contains glabridin that interrupt the stimulation of an enzyme that activates melanin production.

**Kojic acid** heightens cellular turnover after helping exfoliate the skin. Kojic acid is able to remove pigmentation, melasma, age spots, acne, scars, and sun spots.

**Vitamin C** acts as a mild exfoliant. It is essential for collagen synthesis. Collagen gives skin elasticity and makes it look young and firm. It also acts as an antioxidant.

**Vitamin E** can absorb the energy from ultraviolet (UV) light. As an antioxidant, it primarily reacts with reactive oxygen species which damage to skin.

**Niacinamide** is useful for encouraging the production of natural emollients that can help the skin remain hydrated.

**Hyaluronic acid** can improve skin's moisture content and strengthen skin's barrier.

**Propylene Glycol** acts as a moisture absorbent, preventing it from escaping. So it helps skin from drying out.

**Ingredient Information :**

Liquorice extract, Kojic acid, Vitamin C, Vitamin E, Niacinamide, Propylene glycol, Hyaluronic acid, Perfume.

**50gm**

"Advance Fairness Enhancement Formula"

Beauty has its  
Own Previlage

Bring Back Life  
With Beautiful Skin

Benefits :

- Makes skin Lighter and even skin tone.
- Reduces the dark spots and discoloration.
- Improves skin clarity and radiance.
- Helps to lighten the hyper pigmentation in the skin.
- Protects skin against harmful UV radiation.
- Nourishes the skin.
- Gives skin glowing effect.

How Does LA SPLENDRA fairness cream work?

LA SPLENDRA fairness cream contains some ingredients which are called tyrosinase inhibitors. These active ingredients stop tyrosinase enzyme in the skin from producing melanin. Zinc oxide and Titanium dioxide in the cream absorb and scatter the UV rays which damage the skin & which causes pigmentation. Also niacinamide in the cream stops the formation of melanin by inhibiting the transport of melanosomes from melanocytes to keratinocytes. Antioxidants in the cream helps to protect from free radicals damage.

Importance of Ingredients

**Zinc Oxide** blocks the entry of ultraviolet rays into the skin. It scatters and absorbs Ultra Violet A (UVA) & Ultra Violet B (UVB) rays.

**Titanium Dioxide** also absorbs UVB & short wave of UVA radiation.

**Liquorice extract** contains glabridin inhibits tyrosinase activity.

**Vitamin E** raises the level of glutathione in the body which works to clear the body through free radicals and toxins. Delta tocotrienol form of vitamin E is effective in suppressing the activity of tyrosinase (an enzyme that is essential for the production of melanin in skin cells).

**Niacinamide** is believed to influence cutaneous pigmentation by inhibiting the transfer of melanosomes from melanocytes to the keratinocytes without inhibiting tyrosinase activity or cell proliferation.

**Propylene Glycol** penetrates the skin easily and acts as a moisture absorbent, preventing it from escaping.

**Cyclomethicone** helps to leave skin feeling smooth and lubricated, instead of sticky or oily.

Direction to Use:

Clean face and neck.  
Apply gently on cleaned face  
and neck using an upward  
circular motion twice a day.

Ingredient Information :

Niacinamide, Liquorice extract, Vitamin E, Zinc  
Oxide, Titanium Dioxide, Propylene glycol,  
Cyclomethicone, Perfume.

# La Splendra™

## HAIR SERUM

**CLAPS®**  
Celebrating Healthy Life

"Nourishes, Protects & Moisturizes the Hair"

Shortcuts to Beauty  
Success

Restore hair  
Retain hair  
Renew Hair

### Benefits :

- Protects hair from damaging factors like pollution, sun rays, dust, styling tools & humidity.
- Acts as a good conditioner for hair and makes hair silky and slippery.
- Gives hair a healthy sheen with lustrous appearance & maintains curls.
- It is better to use for styling your hair compare to heating irons and curling tools.
- Helps to increase hair growth & length. Ultimately acts as hair growth serum.
- Helps to reduce dandruff, dry flaky scalp and prevents alopecia.
- Removes problem of split ends in long hair.

### How does the LA SPLENDRA Hair Serum work?

Hair serum contains wheat germ oil which helps to increase thickness of hair. Also, it contains silicon which acts by forming a protective barrier at each hair and because of that it protects against the harmful effects of heat caused by blow drying and curling irons. It also ensures the protection of hair against ultraviolet rays. Being protected by this layer, the hair looks shiny.

### Importance of Ingredients

**Cyclomethicone** works as a hair conditioner because it provides a silky feel. It is useful in quickly delivering nutrients to the hair & also coats the hair.

**Wheat germ oil** contains long-chain fatty acids which give it emollient properties to relieve dryness and add softness & moisture to the hair. It is also host of B vitamins: B1, B2, B3 & B6. They increase circulation in scalp which may help to increase thickness of hair. Vitamin B6 helps to incorporate L-cystine into hair cells. L-cystine & vitamin B6 can prevent the alopecia.

**Glycerin** acts as a humectant. It returns moisture back to dry hair and improves the scalp layer. It acts as deep conditioner that will offer moisture & ample nourishment to dry hair. Due to its moisturizing property it gives number of benefits in **length maintenance, itchy scalp, dandruff, split ends, maintaining curls, final rinse.**

**Dow Corning 3031** acts as conditioning agent. It provides a soft, smooth & silky/velvety feel to the hair along with detoxification.

### Direction to Use:

First wash your hair normally with a shampoo then wash it with cold water so that open pores get closed. Then take small quantity of hair serum on the palm and apply it on the hair and let the hair dry normally.

### Ingredient Information :

Cyclomethicone, Dow corning 3031, Glycerin, Wheat germ oil and Perfume.

**100 ml**

"Broad Spectrum UV Protection Non Greasy Formula"

**Stay Protected &  
Cool from Harmful Rays**

**Shades Skin  
Against Sun Damage**

### Benefits :

- Best formula with blend of physical & chemical sunscreens.
- Gives protection from harmful UV rays.
- Helps to prevent premature aging.
- Lowers skin cancer risks. Lowers blotchiness on face.
- Prevents sunburns. Prevents tanning.

#### How does LA SPLENDRA Sun Screen Cream SPF 55<sup>+</sup> work?

LA SPLENDRA sun screen cream is non - sticky & has low viscosity. It is more readily absorbed by the skin. Product is formulated for factor SPF 55<sup>+</sup>, so it penetrates into body, absorbs 98 % of UVB rays and also scatters or reflects UV radiation. So, protect the skin from damage and sunburn.

#### Importance of Ingredients

**Oxybenzone** works as a chemical sunscreen agent. It helps to prevent the breaking down of any molecule that absorbs sunlight.

**Avobenzonone** acts as a chemical sunscreen agent. It absorbs the rays and converts them to energy that is less damaging to the skin.

**Zinc oxide** acts as a physical sunscreen & whitening agent. Its particles sit on the outermost layer of skin (stratum corneum), where they scatter, absorb & reflect ultraviolet radiation. It is truly a broad-spectrum blocker, protecting from UVA, UVB & UVC (UV-Ultra Violet).

**Titanium dioxide** acts as physical sunscreen agent. It is known as popular whitening agent because it provides a bright reflection & helps to prevent tanning.

**Octylmethoxycinnamate** is an oil soluble chemical sunscreen agent that absorbs UVB radiation.

**Cyclomethicone** works as moisturizer. It helps to leave skin feeling smooth and lubricated, instead of sticky or oily.

**Glycerin** acts as a humectant. It can absorb & retain moisture from the air to keep the skin well-toned, moisturized and hydrated. It also decreases the intensity of melanin.

#### Direction to Use:

Open the cap. Press the nozzle to squeeze out cream. Apply generously & evenly 15 minutes before sun exposure. Re-apply after 80 minutes of swimming or sweating, immediately after towel drying, at least every 2 hours.

#### Ingredient Information :

Octylmethoxycinnamate, Cyclomethicone, Glycerin, Oxybenzone, Avobenzonone, Zinc oxide, Titanium Dioxide.

# V-Secure™ Gel

(Lubricating Gel)

**CLAPS**  
Celebrating Healthy Life

Secures Utmost  
Intimate Moments

## Benefits :

- Effective for Women Suffering from vaginal dryness caused by menopause
- For painless intercourse and sexual activities.
- Lightens the skin. Safe to use with condoms.
- Helps in easy insertion of tampons.
- Leaves a fresh sensation and prevents unpleasant odour.
- Helps to reduce rashes & provides emollient, moisturizing properties.
- For daily use, including "During menstrual period" and suitable for all women.

### Why Vaginal Dryness?

In addition to menopause, Vaginal Dryness can occur by:

- Childbirth and breast feeding.
- Radiation or chemotherapy treatment for cancer.
- Surgical removal of the ovaries.
- Anti-estrogen medications used to treat uterine fibroids or endometriosis.
- Allergy and cold medications and certain antidepressants.
- Lack of enough foreplay before sexual intercourse.

## Importance of Ingredients

**Niacinamide** acts as a moisturizer for external vaginal discomfort and helps to combat vaginal dryness and irritations.

**Glycerin** base gives long lasting effect.

**Cranberry extract** is well known for its natural property, as an antifungal and gives best odour.

**Liquorice extract** acts as an anti-oxidant and lightens the skin and also maintains skin tone for intimate area.

**Aloe vera leaf extract** consists of muco polysaccharides which can help in treatment of cystitis.

**Mint extract** helps in yeast infection due to anti fungal property.

**Soothing Relief From Vaginal  
Dryness & Irritations  
Improves Elasticity &  
Reduces Skin Again**

### Direction to Use :

Gently squeeze the tube for desired amount & adequately spread the gel into vaginal area.  
Re-apply as needed.

### Ingredient Information :

Glycerin, Aloe vera leaf extract, Cranberry extract, Niacinamide, Liquorice extract, Mint extract

100 ml

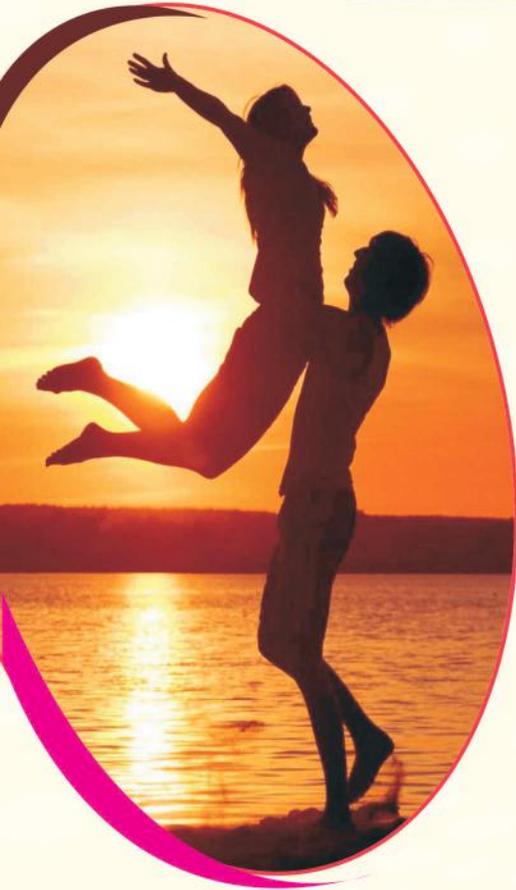

# P-WASH™

Men Intimate Hygiene Spray Foam Wash

**CLAPS®**  
Celebrating Healthy Life

Way to Cleaner  
and  
Better Manhood

## Benefits :

- Prevents intimate area from infections caused due to poor hygiene.
- Removes unwanted smell and prevents bad smelling odour.
- Gently cleans and removes dirt, oil & bad smell.
- Keeps intimate skin smooth, moist and supple.
- Rejuvenates intimate area with freshness.

## Importance of Ingredients

P-Wash contains **Betel Leaf (Piper betel)**, an effective natural antiseptic agent which has a superior cleansing ability.

P-Wash also contains **Tribulus terrestris** which enlarges blood vessels and encourages blood circulation in and around the penis shaft skin.

**Aloe leaf extract** present in P-Wash gives skin lightening and rejuvenating effect.

**Allantoin** is a non-irritating ingredient that soothes and protects the skin.

**Niacinamide** can increase the production of ceramides lipids that help to maintain the skin's protective barrier.

**Betel nut palm extract** improves skin hydration and skin elasticity.

**Mint extract** is a good antiseptic and anti-pruritic material. Mint juice is an excellent skin cleanser. It soothes skin, and helps to cure infections and itchiness.

Makes Sex Life Safe & Happy  
by Maintaining Hygieness
